

## SUSTAINABLE DEVELOPMENT: TOWARD A BETTER FUTURE

CLS UK Infrastructure LTD, a prominent player in the construction market led by Catherine Fell for over 20 years, continues to be a stalwart presence with a renewed focus on sustainability. Beyond being a dependable partner for major projects, the agency is committed to leading the charge in achieving Net-Zero Carbon Emissions.

*“Within our offices, we are actively working to reduce power consumption, already utilising more than 60% of our energy from renewable sources. The next step is a paperless approach, with a plan in place to reduce paper usage by up to 90%.”*

### A Sustainable Commitment

As the construction landscape evolves, Catherine Fell underscores CLS UK Infrastructure's commitment to existing clients and its appeal to those seeking a sustainable workforce. The agency invites individuals who share values such as Integrity, Ambition, and Diversity, signalling a dedication to responsible and ethical practices.

### Beyond Recruitment: CLS's Green Commitment

CLS UK Infrastructure actively contributes to environmental goals, focusing on surpassing past achievements in the journey towards Net-Zero Carbon Emissions in 2024. The agency not only places candidates near project locations but actively promotes greener commuting alternatives.

### Green Initiatives in Motion

In addition to recruitment strategies, CLS UK Infrastructure is actively reducing its ecological footprint within its offices. Already utilizing over 60% renewable energy, the agency is on a trajectory towards a paperless future, with plans to reduce paper usage by up to 90%. These are not just initiatives on paper; they are tangible steps showcasing CLS's proactive commitment to environmental stewardship.

## Beyond 'Green': CLS as a Practitioner of Sustainability

CLS doesn't just talk about being 'Green'; it actively implements green initiatives. As the agency takes on significant projects, it remains resolute in its commitment to safeguarding the environment for future generations. The message is clear: CLS UK Infrastructure is not just delivering staffing for construction projects; it's constructing a sustainable and eco-friendly future.

*“Believing in our values, we are eager to share new ideas and for achieving net-zero carbon. CLS is not just 'Green,' but actively practices green initiatives. As we embark on significant projects, we remain committed to protecting our environment for a greener planet and a more spacious way of life.”*
